Dear Hal,

The other side is self-explanatiory.

Would youp please write Jerry about Green Apples, on Oswald in New Orleans and on his knowing the case is not closed, confirmed by PH and GA, by the way, and that he liked the possibilities of the title or whatever along that line he said.

And, of course, anything else along that line that he can use.

With attention it can be the publishing story of years!

Thanks and bes ,

Harold
